# Hot News for

If you're one of our growing band of customers involved in the installation of domestic central heating systems, you'll welcome the fact that we now stock a range of Wilo glandless pumps specifically designed for the domestic market.

All 3 models have an unrivalled reputation for reliability, superior performance characteristics and a host of advanced design features. And they're easy to install too. Both the Gold and Smart versions are 'whisper' quiet, incorporate a motor that produces a high starting torque and a stainless steel hollow shaft to minimise sticking due to foreign matter in the system.

## Wilo-Gold®

A choice of models to suit any domestic central heating system whether new or as a replacement and each has a 3 speed setting.

**Wilo-Gold RS50** Producing up to 5m head, the RS50 is suitable for most standard domestic heating systems.

**Wilo-Gold RS60** Producing up to 6m head, the RS60 is the perfect choice for high performance boilers and those up to 35kW (120,000BTU) and systems using the latest radiators.

### Performance Characteristics

Manual 3-Speed Setting			
Total Head	Gold RS50	:	5m
	Gold RS60	:	6m
Flow Rate	Gold RS50	:	3.2m <sup>3</sup> h
	Gold RS60	:	3.5m <sup>3</sup> h
Port to Port	:	:	130mm
Connections	:	:	1 1/2" BSPM
Max. Working Pressure	:	:	10 bar
Temperature Range	:	:	-10°C to +110°C

### Electrical Wiring

Mains Power : 230V, 50Hz

	Order No.

# Heating Installers

## Wilo-Smart®

Introduces a whole new concept in pump design. With its 3 pre-programmed settings and its ability to detect and react to blockages while continually adapting its speed to the needs of the system, have made it Europe's favourite circulating pump.

Selection of one of the 3 pre-programmed settings\* (1-2, 3-4 or 5 bedrooms) automatically adjusts the pump to the performance requirements of the system.

- Internal sensor detects and reacts to blockages - particularly valuable at winter startup
- Suitable for open and closed circuits with or without TRVs
- Reduces water circulation and avoids the need for a differential relief valve.
- Compatible with thermostatic regulating valves.

\*3 pre-programmed settings

### Performance Characteristics

Patented 3 pre-programmed settings\*

Total Head	:	max. 6m
Flow Rate	:	max. 2.75m <sup>3</sup> h
Port to Port	:	130mm
Connections.	:	1 1/2" BSPM
Max. Working Pressure	:	10 bar
Temperature Range	:	+2°C to +95°C

### Electrical Wiring

Mains Power	:	230V, 50Hz
